

HELLO AGAIN

VOL. 39 NO. 6

NOV – DEC, 2008

A PERSONAL NOTE:

I turned 74 on the 25th.

If anyone wants information in HA, please e-mail me the exact wording if you can. I can then paste it right in the newsletter. Of course I will accept information in regular mail from everyone else.

We lost one of our good friends, **James (Sonny) Raley**. He specialized in autographs and pictures and was a fixture as a dealer at various conventions including FOTR.

Louise Salerno, our banquet manager for 28 years for our convention, lost her husband of 52 years, Tony, on the 21st. Our deepest regrets go to her and her family.

THIRD REVISED ULTIMATE HISTORY: Just a reminder that this book was originally written in 1992 and is the first and original book listing Network radio programming and the shows that are in circulation.

The third Supplement to the third edition is off the press. Cost is \$5.00 plus \$1.50 P & H.

The 2005 “3rd Revised Ultimate History” is \$63 including P&H, which includes the First, Second and third Supplement. If you bought any of my earlier editions, the cost is \$53 including P&H. Please send new information when you can for the third supplement. I will need the information by October 1, 2009.

McFarland; Broadcasting on the Short Waves, 1945 to Today by Jerome S. Berg 190 photos, appendix, notes, bibliography, index; 496pp. hardcover (7 x 10) 2008; Price: \$65.00

Description

Short-wave broadcasting originated in the 1920s, when stations used the new technology to increase their range in order to serve foreign audiences and reach parts of their own country that could not easily be covered by regular AM stations. The early days of short-wave radio were covered in *On the Short Waves, 1923-1945: Broadcast Listening in the Pioneer Days of Radio*, published by McFarland in 1999. This book picks up the story

after World War II, focusing on the stations themselves and the environment in which they operated. A companion volume, *Listening on the Short Waves, 1945 to Today*, focuses on the short-wave listening community.

The heart of the book is a detailed, year-by-year account of the short-wave bands in each year from 1945 to the present. It reviews what American listeners were hearing on the international and domestic short-wave bands, describes the arrivals and departures of stations, and recounts important short-wave events. The book also introduces readers to the several categories of broadcasters—international, domestic, religious, clandestine and pirate—and to private short-wave broadcasting in the United States. It explains the impact of relay stations, frequency management, and jamming, and describes promising short-wave technologies. It also addresses the considerable changes in, and challenges to, short-wave broadcasting since the end of the cold war. The book is richly illustrated and indexed, and features a bibliography and extensive notes to facilitate further reading or research.

McFarland; Listening on the Short Waves, 1945 to Today; by Jerome S. Berg ISBN 978-0-7864-3996-6 120 photos, notes, bibliography, index 423pp. hardcover (7 x 10) 2008 Price: \$65.00

Description

The discovery and development of short-wave technology during the 1920s and 1930s permitted radio stations throughout the world to transmit their programs over long distances, even worldwide, for the first time, and the thrill of hearing broadcasts from faraway places produced a dedicated American audience. Developments in short-wave broadcasting and short-wave listening from their inception through the war years were covered in *On the Short Waves, 1923–1945: Broadcast Listening in the Pioneer Days of Radio*, published by McFarland in 1999. This book picks up the story in 1945, describing the resumption of organized short-wave listening after the war and its development in the years since. The companion volume, *Broadcasting on the Short Waves, 1945 to Today*, focuses on the world's short-wave stations.

Written from the standpoint of the serious short-wave enthusiast, this book begins with an examination of the broader short-wave listening audience. It then presents in detail the histories of the major North American short-wave clubs and reviews the professional and listener-generated short-wave literature of the era. It also covers the DX programs and other listening fare to which short-wave listeners were most attracted and the QSL-cards they sought as confirmation of their reception. The book presents a chronology of the short-wave receivers available and discusses how changes in receiver technology impacted the listening experience. It also addresses the important role that computers have played in the short-wave listening of recent decades. The book is richly illustrated and indexed, and features extensive notes to facilitate further reading or research.

McFarland; Encyclopedia of American Radio, 1920–1960, 2d ed. by Luther F. Sies ISBN 978-0-7864-2942-4 appendices, bibliography, indexes 1158pp. library binding (8.5 x 11 in 2 vols.) 2008 Price: \$195.00

Description

In this revised, expanded and corrected edition, the acclaimed *Encyclopedia of American Radio, 1920–1960* (*Booklist* Editors' Choice; "recommended" — *Library Journal*) offers even better coverage of the performers and programming on American radio from its inception to its golden age. This work is the definitive source for scholars of communication, social and cultural history and the popular arts, as well as devoted fans of radio history.

New entries include information on such fascinating topics as gender discrimination in radio; holidays on the airwaves; husband and wife teams; minstrel shows, vaudeville, and burlesque; Scopes "monkey" trial broadcasts; and super heroes. Also included is additional information on broadcasters of the twenties, thirties, and forties, as well as on unique entertainers ranging from astrologists and musical saw soloists to yodelers and whistlers. These new additions offer even fuller understanding of radio's important role in American social and cultural history.

OLD FRIENDS: From **Mel Simons**: Bob Elliott has a new DVD called "An Award Winning film by Bob and Ray.";-**Mel** begins his 30th year on WBZ radio in Boston. Mel is a regular on the Steve LeVeille Show. WBZ at night hits 38 states and has a listening audience of over 1 million people.

"WANTED - back issues of any old time radio magazine, or nostalgia publication for the Archives of the Old Time Radio Researchers. Willing to pay some for issues, but would like to have them donated. If donated, will reimburse shipping and handling. PDF files also accepted. Please e-mail **Jim Beshires** at beshiresjim@yahoo.com for more information."

(From **Joe Webb**: <drjoewebb@yahoo.com> I've been working on getting a Suspense set that is complete with all circulating shows, and best sound available. There are a few shows that pose some serious challenges, and good copies may never have been available. If anyone has replacements, please contact me.

These shows are real problems sound-wise and perhaps someone may have better versions:
7/18/56 Man Who Threw Acid (muffle/over modulated)
1/13/57 Russian New Year (muffle/over modulated)
12/1/57 Jet Stream (muffle/over modulated, other places hiss and sound processing remnants)

These shows are less of a problem, but could use some refreshing
2/9/50 The Butcher's Wife - Kirk Douglas HOLLOW SOUND - NOISY
4/12/51 Early To Death - Lucille Ball & Desi Arnaz MUFFLED OVER MODULATED
3/22/55 The Cellar - Eric Snowden (AFRS) TINNY, NOISY NEEDS UPGRADE

These two seem to be bad recordings (they might be home recordings), and new versions may never surface
5/9/46 Clock and The Rope- Jackie Cooper (AFRS)
4/28/52 The Shooting Of Billy The Kid - Frank Lovejoy

I have been looking for years on DVD or tape of "The Pittsburgh Kid" w/Billy Conn & Veda Ann Borg, made in 1941. It was on tv here about thirty years ago, but of course I did not have a VCR then. I will trade or buy; **Bill Anthony**; 412-882-6135; <williamanthony@gmail.com>
